RESPONSE TO RESTRICTION REQUIREMENT WITH ELECTION AND TRAVERSE

This Reply is in response to the Office communication mailed 08/22/2006.

Applicant herewith provides an Election with traverse and associated argument, and provides Annexes with supporting information.

Applicant herewith (i) elects group I with traverse, and (ii) identifies claims 23-31, 34-42 and 51 as encompassing the elected invention. At this time Applicant does not present the claims as there are no amendments to the elected claims, and withdrawal or cancellation of non-elected claims appears premature pending the decision of the Patent Office as to the traversal, which is provided below with supporting documents provided in two annexes as indicated below.

Amendment to the Specification begin on page 3 of this Reply.

Arguments for traversal begin on page 4 of this Reply.
